

## **Boiler Design, Fabrication, Maintenance and Installation:**

Erection of one recovery boiler and one biomass boiler in navia for [ence-navia](#).

Replacement of the upper part of the front and medium walls of the boilers one and two for [TRM, S.A.](#)

Boiler Mechanical Maintenance Works, outage 2007 for [Anllares Power Station](#).

Repair works on boiler B901 for [Repsol Chemical](#).

Replacement of panels and taking of samples in los barrios power station boiler for [Endesa Generación](#).

Mechanical construction of 1 biomass boiler and its auxiliary equipment for [Portucel Viana](#).

Steam boiler repair BL-2301-D E2005/0263 for [Repsol Petroleum](#).

Supply, prefabrication and erection of burner boiler water walls for [TRM S.A.](#)

Management of works of boiler on block II and III for [Union Fenosa Energy](#).

Boiler erection works for [Foster Wheeler Energy](#).

Erection of auxiliary boiler on saica IV for [Foster Wheeler Energy](#).

Boiler repiping F3-BL-1 and metal works in furnace VB3-H-1-A/B for [Petronor](#).

Fabrication and erection of front and medium walls of boilers 1 and 2 for [Tirme](#).

Erection of two recovery boilers on amorabieta combined cycle, UTE CC Boroa for [Bizcaia Energy](#).

Boiler erection on ence-huelva for [Kvaerner Pulping](#).

Reconditioning of boiler 661-F-1801 for [AE Ienergietechnik](#).

Installation and erection of steel structure and boiler for [Andritz Ahlstrom](#).

Mechanical erection of boiler and auxiliary equipment to be installed for [Repsol](#).

Erection and refurbishment of dow chemical boiler for [AE Energietechnik](#).

Mechanical erection of boiler and auxiliary equipment for [Saica](#).

Fabrication and installation of cogeneration boiler in solvay for [F.W.E.](#)

Erection of cogeneration boiler for [General Electric Foster Wheeler](#).

Erection of cogeneration boiler for [Repsol](#).

Erection of cogeneration boiler for [Ertisa Foster Wheeler](#).

Enlargement and installation of a new steam boiler for [Bateamar](#).

Boilers repair in tanker Camponublado, tanker Campodola, tanker Calvo Sotelo and tanker T Campeon for [Repsol YPF](#)

## **Pipe Design, Fabrication and Installation:**

Fabrication and erection of piping for [Petrobas](#).

Pipeline construction and erection for [enagas](#).

Erection of piping on compostilla 4 and 5 power station, gas combustion desulphurization project for [Duro Felguera](#).

Erection of air/carbon ducts at soto de rivera power station for [Hidrocantabrico](#).

Erection of Packages Sh-4 and Sh-5 drainage piping for [Tirme](#).

Supply, fabrication and erection of sulphuric acid and pumps piping for [Asturiana of Zinc](#).

Construction, testing and starting up the positions of gas pipeline for [Extremadura Gas Transportation](#).

Erection for circulating water piping on Sagunto combined cycle BOP for [Sirusa](#).

Mechanical erection of equipment and piping of offsites for [Técnicas Reunidas](#).

Supply and erection of piping for the transportation of sulphuric acid for [Asturiana of Zinc](#).

Construction and erection of main pipeline for gas conduction for [Enagas](#).

Horizontal drilling water piping erection for [Iberdrola](#).

Pipeline construction for [Arcos de la Frontera Combined Cycle](#).

Assembly and Welding of pipeline sending gas acid from UU-454/661 to stripper for [Repsol](#).

Distribution Mains for [General Electric](#).

Distribution Mains for [Enagas](#).

Distribution Mains for [Foster Wheeler](#).

Design and erection of 6000 pipes in our work shops for a chemical tanker for [F. Vulcano](#)

Design and erection of 5000 pipes in our work shops for a seismic vessel for [HJB](#).

## **Plant Design, Building and Maintenance:**

Mechanical erection of BIODIESEL PLANT for [Abener Energy](#).

Mechanical erection of BENZENE AND BIODIESEL PLANTS for [Repsol Petroleum](#).

Mechanical erection of ESCATRON THERMOELECTRIC POWER PLANT for [Enel S.P.A.](#)

Mechanical erection of the NOX PLANT for [Iconsa](#).

Mechanical erection and civil works of ALICANTE COMPRESSION PLANT for [Enagas](#).

Installation of HYDROGEN PLANT for [Technir](#).

Mechanical erection of ISOPENTANO PLANT UNIT for [Repsol](#).

Mechanical erection of FUNGICIDES PLANT for [Mec. Peña](#).

Mechanical erection of the POWER PLANT OF ROSELLO for [Mec. Peña](#).

## **Freezing Equipment Design, Fabrication and Installation:**

Manufacture of vessels and particle separators for [Fricomza](#)

Manufacture of vessels, particle separators, evaporators, and compressor supports oil coolers, etc. for [Frigo –Comet](#)

Manufacture of vessels, particle separators, evaporators, and compressor supports oil coolers, etc. for [Frimarte](#)

Refrigeration installation in one of the plants for [Galiciamar](#)

Refrigeration installation in 501 and 502 ships and production of vessels, evaporators, coils and supporters for [Grenco BV](#)

Production of vessels, separators, evaporators, compressor supporters, coolers, iced water tanks, etc. for [Grenco Iberica](#)

Refrigeration installation in a food preservation plant in Oman Sultanate for [Grenco Iberia](#).

Refrigeration installation in Europastry for [Grenco Iberica](#)

Production of vessels, separators, evaporators, coils, oil coolers for [Megodeza](#)

Refrigeration installation in Mercastur for [Megodeza](#)

Refrigeration installation in Cervo for [Megodeza](#)

Refrigeration installation in Villagarcía for [Megodeza](#)

Refrigeration installation in Mercamadrid for [Megodeza](#)

Refrigeration installation in Castellón for [Megodeza](#)

Refrigeration installation in Lalín for [Megodeza](#)

Production of vessels, separators, evaporators, coils, oil coolers for [Monfrigal](#)

Production of vessels, separators, evaporators, compressor supporters, coolers, iced water tanks for [R. Vizcaino](#)

Installation of iced water tanks in Leon for [R. Vizcaino](#) Installation of iced water tanks in Sevilla for [R. Vizcaino](#)

Installation of iced water tanks in Puleva-Food for [R. Vizcaino](#) Manufacture of pressure vessels in Africa for [Grasso](#).

Manufacture of vessels, separators, evaporators, coils, oil coolers for [York](#)

Refrigeration installation in C-24 of Armada Shipyard for [York](#)

Refrigeration installation in C-438 of Freire Shipyard for [York](#)

Refrigeration installation in C-440 of Freire Shipyard for [York](#)

### **Shipbuilding Design, Fabrication and Installation:**

Installation of piping, boiler making and vats in C-1583 a tuna fish ship for [HJB](#)

Installation of piping and boiler making in C-1575 a ferry boat for [HJB](#)

Installation of piping and boiler making in C-1594 a ferry boat for [HJB](#)

Installation of piping and boiler making in C-1595 a ferry boat for [HJB](#)

Installation of piping and boiler making in C-1617 a ferry boat for [HJB](#)

Installation of piping in deck, domo and nitrogen plant in C-1589 a gas tanker for [HJB](#)

Installation of piping, boiler making and vats in C-1623 a tuna fish ship for [HJB](#)

Installation of piping, boiler making and vats in C-1624 a tuna fish ship for [HJB](#)

Installation of piping and boiler making in C-1645 a ferry boat for [HJB](#)

Installation of piping and boiler making in C-1646 a ferry boat for [HJB](#)

Installation of piping and boiler making in C-1651 a container ship for [HJB](#)

Installation of piping and boiler making in C-1652 a container ship for [HJB](#)

Installation of piping and boiler making in C-1657 a seismic vessel for [HJB](#)

Installation of piping and boiler making in C-1659 a seismic vessel for [HJB](#)

Installation of piping for deck services and boiler making in C-477 a chemical tanker for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-481 a chemical tanker for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-482 a chemical tanker for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-478 a chemical tanker for [F. Vulcano](#)

Installation of piping and boiler making in C-485 an oil platform support boat for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-480 a chemical tanker for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-490 a chemical tanker for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-491 a chemical tanker for [F. Vulcano](#)

Installation of piping and boiler making in C-521 an oil platform support boat for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-489 a chemical tanker for [F. Vulcano](#)

Installation of piping for deck services and boiler making in C-489 a chemical tanker for [F. Vulcano](#)

Repair of piping and boilers in Soamis Adventor ship for [Astican](#)

Repair of piping and boilers in Cindy Gaia ship for [Astican](#)

Prefabricated and assembly of piping in oil platform Artic III for [Astican](#)

Installation of piping in Chiruca Silveira ship for [Cardama](#)

Recasing of boilers in Isere ship for [Astander](#)

Recasing of boilers in Seine ship for [Astander](#)

Deck repair of piping and boilers in Geopotes 15 ship for [Astander](#)

## **Civil Construction Design, Fabrication and Installation:**

Manufacturing of structures for casing and hanging for [Grupo Puentes](#)

Installations and enlargements of piping in different Spanish centres for [Repsol YPF](#)

Several repairs and maintenance of trains in Vigo, Beasainz, Madrid, Sevilla and Valencia for [CAF](#)

Several repairs in wagon structures and substitution of mechanical elements in chassis for [Renfe](#)

## **Pollution Control Design, Fabrication, Installation and Maintenance:**

### **Food sector design, Fabrication, Installation and Maintenance:**

Design and installation of a food preservative plant in Oman Sultanate for [Focoex-Actemsa](#)

Fabrication and installation of a boiler for a new headquarter of food preservation plant in London for [DaniFoods](#)

Installation of all piping services in a food preservation plant for [Alimentos Arosa](#)

Development and installation of a boiler and piping services in food preservation plant for [Bateamar](#)

Supply and assembly of boilers in a food preservation plant for [Costas y Miñan](#).

## **Pharmacological sector design, Fabrication, Installation and Maintenance:**

Enlargement and construction of rooms and bio pharmacological laboratories in Asturias for [Astur-Pharma](#)

Fabrication of vessels with restlessness, prefabrication of structures and integral maintenance of facilities for [CZV](#)

## **Industrial sector design, Fabrication, Installation and Maintenance:**

Fabrication in our work shops of bio remediation bacteria carrier for Prestige oil tanker for [Repsol Ypf](#)

Fabrication in our work shop of thermic oil vessels for [FINSA](#)
